## YEABSIRA ZELELEM

### Front-End Developer

## ABOUT ME

A dedicated coder with a talent for solving complex problems and an insatiable passion for innovation. With expertise in various programming languages and a meticulous attention to detail, I excel in fast-paced settings where I can apply my skills to develop streamlined, sophisticated solutions. By prioritizing clean coding practices and fostering teamwork across diverse groups, I consistently bring creativity and unwavering commitment to every project I undertake.

## WORK EXPERIENCE

### Front-End Developer

Federal Prison

- Developed and deployed responsive and secure user interfaces for a federal prison registration system, ensuring compliance with rigorous government regulations and seamless integration with backend systems. Worked collaboratively with cross-functional teams to interpret design specifications and deliver efficient front-end solutions, enhancing user experience through optimization.

## PERSONAL PROJECTS
