## Education

2022 – present

Addis Ababa Science and Technology University

### Software Engineering

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Database Management, System Analysis and Design, Computer Graphics, Mobile Computing, Software Design and Architecture.

2024 - present

Addis Ababa Science and Technology University

### MSC Software Engineering

Selected from over 50 applicants for the prestigious Fast Track program, allowing me to pursue both my bachelor's and master's degrees simultaneously.

## Projects

### Askal Charity organization website

Developed the Askal Charity Organization website using React and Tailwind CSS, incorporating backend API integration.

### Tsimona Books website

Built the Tsimona Books website with a public API, integrating advanced search and filtering features. The UI is fully responsive and designed using color theory principles to enhance aesthetics and usability.

### Ritta Flowers website

Developed the Ritta Flowers website using React and Tailwind CSS, focusing on efficient routing and a seamless ordering system for a smooth user experience.

## Extracurricular

### Shecodes AASTU Mentor

Guided and supported new female students in the Software Engineering department, helping them gain familiarity with the field.

### Hackathon Mentor

Mentored three hackathon teams from 47 universities, with two of them securing 1st and 3rd place.

### Volunteer at Askal Charity Organization

Contributed to content creation for the AASTU Charity Club as a core team member. Additionally, provided educational support to students assisted by the Askal Charity Organization.
